## Barrackpore gets Activity Centre

Some 6000 residents of Barrackpore will benefit from an activity centre costing \$1.1 million constructed by the National Commission For Self-Help Ltd, according to chairman Surujdeo Mangaroo.

He told the sod-turning ceremony at Kanhai Road, Barrackpore on Tuesday 26th May 2015 that the project will be completed in three month's time. Board members in attendance were: Ms. Petronilla Basdeo, Mr. Arnold Gajramsingh and Mr. Renwick Bakhorie.

Mangaroo said that the centre must be used for all your social and cultural activities and it is for the residents of the area. "I urge the young people of the area to use the facilities for constructive purposes which means to build the community, build the people and by extension the country." "Trinidad and Tobago is now undergoing a serious metamorphosis in terms of social, economic and other spheres of development, and this activity centre must be the meeting point to further accelerate this initiative," Mangaroo said.

He said that this centre was being constructed because of the repeated requests made by M.P. the Hon. Clifton DeCouteau. Mr. DeCouteau, in his address, said that this activity centre could well be," the Indian Arrival Day gift to the people of this community."
